

Micro Great Ball Contraption (MGBC)

[Click for instructions for building the Ball Pump](#)

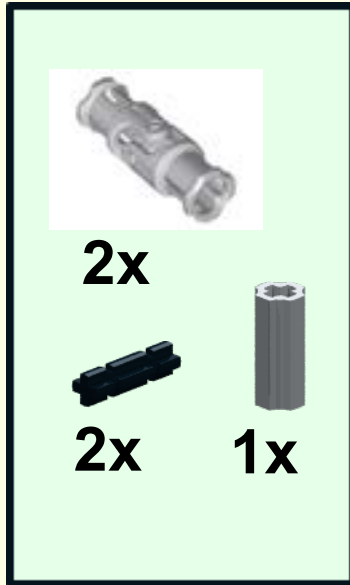

[Click for instructions for building the Stepper.](#)

Build the Connector.

Both the Ball Pump and the Stepper use hand cranks to be used while building and adjusting the modules. The Ball Pump hand crank is replaced by a motor, and the Stepper hand crank is replaced by this connector assembly as shown below.

The universal joint is Bricklink part 62520c01 the newer "3 long" joint.
